OBJECTIVE

I am seeking a challenging **Front-End Developer** position in a reputable organization where I can utilize my skills to make a significant contribution, while also expanding my knowledge and skills.

EDUCATION

B.Tech in Computer Science & Engineering, Parul University   March 2023

HSEB, XII AB Higher Secondary School   March 2019

GHSEB X, Vidyakunj English Medium High School   March 2017

SKILLS

Technical Skills   HTML, CSS, JavaScript, SQL, MySQL, Bootstrap.

Soft Skills   Teamwork, Communication, Creativity.

ACADEMIC PROJECT

Plant Disease Prediction

As a final year college project, we developed a plant disease prediction system using a **CNN model based on deep learning**. The system identifies plant diseases with achieved accuracy of 97 percent. Additionally, developed an interface using **HTML, CSS, and JavaScript** to allow users to easily interact with the system locally.

PERSONAL PROJECTS

Frontend Developer Bootcamp

A dynamic learning platform built with **HTML, CSS, JavaScript, and Bootstrap**, providing an immersive experience in front-end development.

Portfolio Website

I created my portfolio website using **HTML, CSS**, featuring a clean modern design, responsive, and various CSS techniques such as animations and transitions. while providing a great user experience.

Food Blog Website

I created a food blog website using **HTML, CSS** to share stories and recipes related to food. The visually appealing design effectively showcases the blog's content and provides a seamless user experience.

Barbershop Website

I created a hair studio website using **HTML, CSS, and JavaScript** to showcase their services and expertise. The website has a user-friendly interface and effectively promotes the studio's offerings.
